

Mobility scooters
Reference no. ST023
Stowaway i3

This popular scooter is folded by pulling the lever in the footplate. The i3 model is the cruise line preferred model on board Ambassador, Fred Olsen and MSC cruises. Weighing 24Kg this scooter has the option of a second lithium battery. The range and speed may vary depending on the weight of the user, terrain type, outside temperature and battery charge. We advise that you plan your route to avoid adverse terrain and inclines where possible. If this is unavoidable; we do not advise an incline above 5°. Please note: this product is flight friendly however it is the client's responsibility to contact the airline to confirm. Please be mindful that gangways and air bridges can vary in the degree of gradient due to the tides. Some products are not designed to cope with acute slopes.
