# Moving & Handling

## Reference no. MH001

Casalift Hoist

This hoist is electrically operated - the width of the legs and height of the arm can be adjusted using the remote.

**It is the client's responsibility to provide their own loop attachment sling**

**Please do not store or use the hoist in the bathroom or on the balcony.**

Be aware that it is not recommended that the wheel brakes are applied when hoisting and that moving across the cabin is limited due to resistance with the carpets on board.
