

Power Chairs

Reference no. PC014

Cruiser 14 - Ibis Power Chair

The Ibis attendant controlled power chair is suited to the more dependant user. By being equipped with direct drive motors 'pushing' this chair becomes easier for most. The Ibis can be supplied in either rear wheel drive or forward wheel drive both with an elevating seat. On board are 2x 35Ah AGM dry cell batteries which can give a max speed of 6.4kmh(4mph) and a max range of 24.8km(15.5miles), although the range and speed of the chair may vary depending on the weight of the user, terrain type, outside temperature and battery charge.

We advise that you plan your route to avoid adverse terrain, inclines, kerbs and steps if possible; if this is unavoidable we do not advise an incline above 5° and a kerb / step above 4cm(1.5"). If it has been agreed that adjustments are necessary, this will need to be done prior to 1pm on the day of the cruise. Please arrange this with the office.

Specifications

FWD

Ground Clearance:	6cm / 2.3"
Length:	104cm / 40.9"
Width:	59.5cm / 23.4"
Seat Width:	45.75cm / 18"
Turning Radius:	60cm / 23.6"
Weight with batteries:	82kg / 181lbs
Maximum user weight:	158.8kg / 350lbs
