

## **Mobility Scooters**

**Reference no. ST018**

**Stowaway Morphic**

The Stowaway Morphic scooter folds by the touch of a button. It has pneumatic tyres and wide foamed seat providing a comfortable ride. A powerful 9ah Lithium-ion battery provides good range of up to 24km (15miles) and speeds of up to 6kph (3.7mph), although the range and speed of the scooter may vary depending on the weight of the user, terrain type, outside temperature and battery charge. We advise that you plan your route to avoid adverse terrain and inclines if possible; if this is unavoidable we do not advise an incline above 5°. Please note if you wish to take this product on an aircraft, it is your responsibility to contact your airline to confirm suitability of this product.
